5 YEAR WORKMANSHIP
WARRANTY

license number AU47734

Experts in sales, servicing and repairs for all types of air conditioning.

EAS delivers practical solutions in residential, commercial and industrial air conditioning.

We also service, repair and install ducted reverse cycle air conditioning systems as well as delivering commercial HVAC maintenance contracts.

EAS understand that every customer and every home is different, we can help you choose or design the right system for your requirements.

Standard installation

A standard installation is defined by the indoor unit being mounted high on the inside of an external wall with the outdoor unit on the ground directly behind the indoor unit. We allow for a maximum of 3 meters of pipe between the indoor and outdoor units. Up to 15 meters of electrical cable is included to connect the outdoor unit to the main switchboard. Any installation requirements outside of these parameters may attract additional charges (see below). Any extra charges will be discussed with you prior to the job commencing.

Additional charges and costs (all prices exclude GST)	
Extra Pipe	\$55 per metre
Extra Cable	\$5.50 per metre
Electrical Conduit	\$16.50 per metre
Wall Bracket	\$110
Double Storey Charge	\$165
Double Brick	\$77
Side Exit Installation	\$66
Decommission and Dispose	\$110
Roof Bracket	\$275
Condensate Pump	\$500
Hole Core	From \$275
Circuit Breaker Enclosure	\$44
Regional (>50km) Travel Charge	\$2.50 per km

Terms and conditions: Offer is valid from 1 January 2024 until 30th November 2024 unless sold out prior. Available in metropolitan Adelaide, climate zones 4-5. Subject to site inspection. Regional areas and properties in Climate zones 6 may be subject to a wait period and additional charges. Installation price includes an installation that complies with the AS/NZS 3000:2018 Wiring Rules. Standard installation means a back-to-back installation that includes up to 3m of pipe and 15m of cable back to the switchboard on a single storey brick veneer home or small business. Switchboard must be adequate to support power requirements of the unit, any extra wiring work or switchboard upgrades will incur additional charges. Offer applies to new air-conditioner installations and replacements of non-working units. The replacement of working units is only eligible for priority group or hardship group households. Priority/Hardship Group Customer is defined as a person who holds one of the following cards: Pension Concession Card, Health Care Card, TPI or War Widows Gold Repatriation Health card, Gold Repatriation Health Card (EDA), a participant in an Energy retailer hardship/concession or payment plan program, a household that is receiving an SA Government Energy Concession, a household that has been referred by a registered member of the SA Financial Counsellors Association (SAFCA) or a household that is a rental property where the weekly rental is not more than \$400 per week. If you are a Priority Group customer you will need to provide evidence of your card, rental status or Retailer letter confirming eligibility at the time of booking to receive the discounted rate. I agree and acknowledge that I will be required to pay balance owing and any extras or variations identified during the site inspection at installation commencing. If a customer changes their mind on location or varies the original installation plan that creates additional labour or costs, they may incur additional charges. If the customer is not at the property to provide access, or the area for installation cannot be accessed due to locked doors, blocked walkways or clutter, the customer may be subject to a no access fee of \$99 and their job may be cancelled. Customers will be required to sign a REPS activity form on the day of installation to confirm the works have been completed correctly, if this form is not signed, the REPS cannot be claimed, and the customer will be liable for the full cost of the system and installation. If a customer has received a discounted Priority Group rate at the time of booking but cannot provide evidence of their Priority Group eligibility, they will be subject to pay the full general household advertised rates. The installer will provide the final total costs payable, including any additional charges applicable following a site visit or on the day of installation. Customers have the right not to proceed with obtaining the energy productivity activity. The customer will be provided with an Information Statement on the day of installation. Public or Private rentals - If the tenant has requested the installation, they must provide landlord approval evidence before an installation can be booked. General households and businesses must pay a min of \$33 at the time of scheduling the appointment or before the date of install.

Need a service instead?

We provide a full health check service of your existing air conditioning unit. On completion, you will receive a full service report detailing what was completed and if there are any recommendations. Call us today to book your service or visit us at eas.trade/deep-clean
